Hi all

I'm really excited to start learning to fly as its my dream to be an airline pilot...

I'm currently looking around at the flying schools at archerfield, Brisbane and was wondering if anybody know of the best school to go to in that area.

Also, just wanted to know, i did not do science in year 12 but i did do maths B, is it a big train smash not having those subjects and how much theory is ther and is it hard..

i wanna finally get my CPL,MER, ATPL And fly the big boys..

Thanks

=====
